

DOCTRINE OF THE DEGREES OF GLORY

6/15/25

The core being, or experiencing particle, of mankind is called an "Iuh" in Adamic. An Iuh is a sub-atomic force which can neither be created nor destroyed, and is the part of mankind that is actually experiencing. Iuh came in packets of two in the beginning, a dominant part and a submissive part, that were sealed together, or quantumly locked. Therefore God brought forth spirit bodies to clothe these Iuh in the beginning, making the dominant Iuh male and the submissive Iuh from the same packet female. Heavenly Father and Heavenly Mother made these spirit bodies by natural copulation, two by two, male and female. Whether or not a male is permitted to keep his sealing to this original sister spirit, or "Iuh counterpart," is dependent upon his nature.

Iuh come with four different possible natures, and many sub-classifications, but an Iuh's innate nature does not change. An Iuh is calculable by God, and when an Iuh is given free-agency, it will still always choose the same thing under identicle circumstances. God knows beforehand everything that we will do, but he shows us why we are classified, catagorized, and judged, after a series of mortal lives, with which judgement we are judged.

"Hayah" is the name of Heavenly Father, and "Benbanuh" is the name of his only begotten Son in the flesh. Benbanuh as Jesus Christ atoned for our sins, that we might be saved, cleansed, justified, and redeemed by his Grace.

(1.) Celestial Iuh, who are valiant, selfless, and who have an Eternal capacity for Love, are the most rare form of Iuh. There are only 144,000 Celestial Iuh packets on this earth. Celestial Iuh packets are worthy of being enlarged and added upon; therefore, Celestial men will all have seven wives. They have their original Iuh counterpart, as well as six additional wives sealed unto them, because they are worthy. Total population: 1,152,000.

(2.) Perdition Iuh, who are noble but rebellious, are the second most rare form of Iuh. Perdition Iuh are only male, or dominant Iuh, and they are six times more common than dominant Celestial Iuh. The Iuh counterparts of the sons of Perdition are sealed to Celestial men, and the sons of Perdition are cast into that lake of fire that is outerdarkness. Total population: 864,000.

(3.) Terrestrial Iuh who are of the nature of concubines are the third most rare form of Iuh. These are unsealed, and make up the second degree of the Celestial kingdom, because they and their Iuh counterparts are servants unto Celestial men and women in different capacities. Population: 14,112,000.

(4.) Terrestrial Iuh who are of the nature to be monogamously married together, and to serve Celestial men and women as couples, are more common.

(5.) Terrestrial Iuh who are not worthy to be in the Celestial kingdom, but who can only be in the Terrestrial kingdom are even more common.

(6.) Telestial Iuh are as numerous as the sand upon the sea shore, and are not worthy to go anywhere else, but must be segregated forever.

All of the Celestial and Terrestrial children of Hayah, that belong to earth's portion of the family of God, will be resurrected at the beginning of the millennium, at the coming of Jesus Christ. All of earth's Telestial children of God will not be resurrected again until after the millennium, during which time they will suffer in hell. The Celestial and the Terrestrial children of God will have the blessing of living multiple new lives, during their one thousand years of peace.

I know these things are true by powerful witnesses of the Holy Spirit.
