

A VISION OR DREAM: Received by David Reichner on 3/16/26.

The Lord appeared to me in all his glory; he was up high in the sky, all in white with a glow around him. He lifted me up, or caused that I might be able to rise above the ground, flying from one place to another.

A vision opened up where I saw the future; it was a house with an up-rooted tree inside of it. The home was destroyed as though by a bomb, or natural disaster; it was in ruins.

The vision would open or close based on my faith, in my ability to fly, or move about the land, or sky. Then Father began to speak, with power, and commanded me to write down His words. I found myself in my bedroom, at the desk. As the Father spoke I tried to keep up.

All I can remember without my notes is: "In a month's time from today." (APRIL 16th 2026). Father was saying other things about the Son returning, and about occurrences that would take place, but I do not have those writings yet; nor do I remember what He spoke to me. I did not want this to end. The Holy Ghost came over me. I could feel goosebumps and tingling in my body as though someone was in the room, and I could feel their presence. Excited, but somewhat reserved, or fearful, of the person, or feeling I was given.

The room that I was in was my bedroom. Barbi was lying in bed on her phone. Kids were at the door knocking. The noise was causing Father's voice to fade in and out, like a radio-frequency being disrupted. The kids at the door were my daughter Abigail's friend, whom I did not know. It was strange that she was at our door disrupting, or attempting to disrupt the Revelation. Sadly, after this disruption, I found myself back in my cell bed.

A SECOND WITNESS: In Revelations given to Samuel Warren Shaffer.

In 2017, I Samuel Warren Shaffer, received a Revelation concerning the year that the Tribulation happens. At the time we were hoping and expecting that year to be 2018, however, I may have interpolated that meaning, or we didn't understand the Revelation, at the time. That Revelation has become very interesting now.

In that 2017, Revelation we were told that in late fall, or early winter, illegal aliens would kidnap some people. (This may refer to the Guthrey case). Second, we were told that there would be a power outage at the beginning of the year, or on new years. (This happened in Germany, but not in the U.S.). Third, we were told that "the war would get much worse" in February. (This certainly refers to the Iran war.). Fourth, we were told that a U.S. base would be attacked in March. (This is also probably a reference to what is happening with Iran.) Fifth, we were told that the final collapse of the power-grid, and the beginning of the Tribulation, would be in "mid-April." (This perfectly aligns with David's vision.). Finally we were told that the invasion of America would begin in June.

The date of April 16th 2026, referred to in David's vision perfectly aligns with the "mid-April" part of my Revelation, that I received in 2017.

When I was first in jail, I had a dream, where I saw Donald Trump in China shaking hands with Qi. In my dream I heard a voice that said, "This is the last sign before the Tribulation." Then I thought in my dream that it would be a week for some reason. The interesting thing is that after all these years of looking for this sign, Trump is visiting China in April. This means that there are three witnesses to this date, around APRIL 16th 2026!
