

A BLESSING TO DAVID REICHNER FROM RANDALL VAUGHN

I chose to return to this earth, because the agency of men had misused Tesla's technology, that fractured the Earth's auric field. This allowed other life forces, from other dimensions to interfere with His children, and Father's plan for this earth. [God's hand is in all things, and is all knowing, and all powerful, so this also is part of His plan, even when it interferes with Earth.] Remember, all have agency, those that are good and those that are evil, and chose evil. [God also knows what we will do according to His foreknowledge.] All that I am sharing is from my own personal experiences; not taught to me by others, but by the Spirit. Why am I sharing these things with you? That you might stand in the power of your priesthood. So you can take this to Father, and seek your own remembrance.

You will need to be translated again to fulfill your mission and stewardship. You are one of the one hundred and forty four thousand High Priests who have come to prepare His children for His coming. First at Adam-Ondi-Ahman, and then to the world.

David, thank you for giving me the opportunity to remember a brief walk down memory lane. There is much we are to do in the future, by staying in the moment, and doing now what the Spirit directs today. I love you and look forward to our next meeting in this mortality. Understand that punctuation and writing are not my strong suit, or a strength I can share with you. This is sent in Love, and with only a desire to be obedient to the Father, and to you, His blessed son! I love you, look forward to our next visit.

A VISION OR DREAM: Received by David Reichner on 3/16/26.

The Lord appeared to me in all his glory; he was up high in the sky, all in white with a glow around him. He lifted me up, or caused that I might be able to rise above the ground, flying from one place to another.

A vision opened up where I saw the future; it was a house with an up-rooted tree inside of it. The home was destroyed as though by a bomb, or natural disaster; it was in ruins.

The vision would open or close based on my faith, in my ability to fly, or move about the land, or sky. Then Father began to speak, with power, and commanded me to write down His words. I found myself in my bedroom at the desk. As the Father spoke I tried to keep up.

All I can remember without my notes is: "In a month's time from today." Father was saying other things about the Son returning, and about occurrences that would take place, but I do not have those writings yet; nor do I remember what He spoke to me. I did not want this to end. The Holy Ghost came over me. I could feel goosebumps and tingling in my body as though someone was in the room, and I could feel their presence. Excited, but somewhat reserved, or fearful, of the person, or feeling I was given.

[In 2017, I Samuel Warren Shaffer, received a Revelation concerning the year that the Tribulation happens. I was told that there would be a week long power-outage at the beginning of the year, (which only happened in Germany.)—That "the war would get worse in February," (which appears to be about Iran.)—That there would be an attack on an American base in March, (which might be in the middle east.)—That the final power outage of all America would be in mid-April. This lines up with David's vision. I also had a dream of Trump in China, before it happens.]
